

Health and Safety Policy Statement

At Pollock Cranes our reputation in service and health and safety is important to us. We believe in a genuine commitment to safe work practices with our people and anyone affiliated with our operations.

Pollock Cranes being a family business means our people are important to us and like family! Our ambition is to ensure our family is protected from harm eliminating or minimise risks to their health and their safety.

This will be reflected by (this list is not exhaustive):

- Providing and maintaining a safe working environment without risks to health and safety; and
- Providing opportunities for Workers to engage, be represented and participate in any form of discussion, activity, event or other avenue related to safety and health within Pollock Cranes' business; and
- Ensuring all plant and structures are maintained; and
- Providing the provision and maintenance of safe systems of work; and
- Providing the safe use, handling and storage of plant, substances and structures; and
- Ensuring all Workers and other people at (or in the vicinity) of the Pollock Cranes' workplaces are not exposed to unmanaged or uncontrolled hazards; and
- Providing the provision and maintenance of emergency and evacuation procedures; and
- Continually learning and improving health and safety ongoing.

Our Workers are required to make conscious decisions to maintain safe work practices at all times to ensure their own safe and healthy environment and that of their fellow Workers and others in the workplace.

"Right Culture, Right People, Right Systems"

Wayne Slater
Managing Director
