

400 TON CAPACITY

WHERE EVER THE WORK IS.

EASY MOBILIZATION AND SIXTY METRE MAIN BOOM, 79M LUFFING/FIXED JIB WITH FAST ERECTION AND DE-ERECTION TIMES MAKE THE GROVE GMK6400 ALL TERRAIN CRANE A MIGHTY ALLY IN THE CONSTRUCTION INDUSTRY FOR POLLOCK & SONS CRANE HIRE.

"We are very happy with the GMK6400 crane. New opportunities are opening up that were previously dominated by 2-3 companies. Customers are surprised at the cranes capacity considering it is a true 400 ton capacity mobile taxi hire crane"

– Wayne Slater, Partner Pollock Cranes

Thomas Slater, Partner Pollock Cranes

Six months of research led Pollock Crane Hire into deciding on the largest capacity 6 axle all-terrain telescopic mobile crane in the world – the Grove GMK6400 All-Terrain.

- 60m main boom with 79m of luffing/fixing jib
- excellent roadability (with boom and outrigger removal technology)
- identical outrigger footprint as Grove gmk6220L (220ton) and gmk6300L (300ton) already in Pollock Cranes fleet.
- mega-wing attachment with self-assembly, increasing main boom capacity by close to 100% with 60m main boom.
- fast erection and de-erection times for motorway and bridge beam lifts.
- fully rigged on the road with hook and basic lifting equipment enabling a 100-400 ton capacity.
